

Cincinnati Children's 26th-Mile (or more) Event

Congratulations on your commitment to Be Smart, Eat Well and Move More! This program is designed to promote a lifetime of healthy habits.

Your goal is to walk, jog, run or wheelchair the distance of a marathon (26.2 miles) or more in the months leading up to the Cincinnati Children's 26th Mile event in May.

Track Your Miles

Using the HOG LOG, track each mile you complete toward your marathon goal. Miles can be done at school or with family and/or friends. Always pick a safe place and never go out alone.

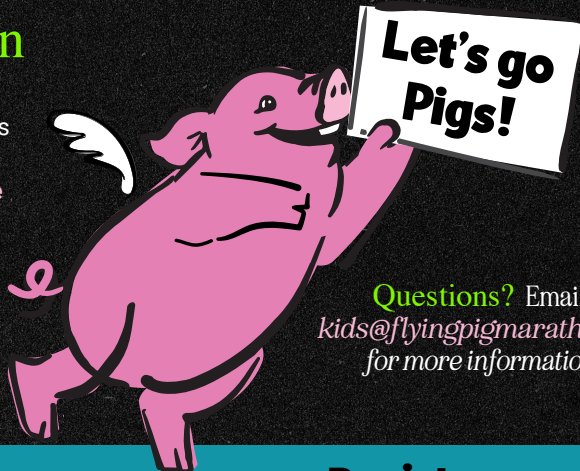

Finish in Pig-Style

Celebrate your hard work and many hog-logged miles by crossing the "Finish Swine" in downtown Cincinnati on part of the actual Full Marathon course. All participants will receive a Flying Pig shirt and finisher medal.

- **Cincinnati Children's 26th Mile** (1 mile, untimed event for Kids' Marathon program participants grades K-6th but no age limit enforced) **May 4th, 2023, 11 am**
- **Piglet Fun Run – Presented by First Watch** (short dashes by age-group starting with crawlers up to ages 7 years old) **May 4th, 2023, 10 am**

Registration

To register, access youth training resources and more, visit www.bit.ly/pig26thmile. Remember to select your school or group during registration for the event.

Nutrition Challenges

Eating well is so important to being healthy. You need the right nutrients from the right foods to be a strong and healthy athlete. Just like setting goals for reaching marathon distance, you can set goals for good nutrition, too.

We have set 4 Nutrition Challenges as your daily goals. Try to reach each of these goals as often as you can.

RETHINK YOUR DRINK

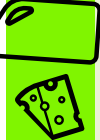

Avoid soda and sweet drinks. Stay hydrated with healthier choices like water, milk and 100% juices.
I drank only healthy beverages today.

FOCUS ON FRUITS AND VEGGIES

Fruits & vegetables offer awesome sources of vitamins, minerals, and other nutrients. Try something new, you might like it!
I tried 3 fruits and/or veggies today.

GET CALCIUM

Building strong bones and muscle takes calcium. Low and non-fat milk, yogurt and cheese are excellent sources.
I got 3 servings of calcium-rich foods today.

GO FOR THE WHOLE GRAIN

Grains provide our main energy source for the body and brain. Get the ultimate fuel by eating breads, cereal and grain products that are WHOLE.
I had at least 1 WHOLE grain today.

Other Wellness Challenges

Exercising your mind is important for overall wellness. Try incorporating these other wellness challenges into your daily routine.

EXERCISE YOUR BRAIN

Get your brain some healthy food.
Read (or be read to) an additional 15 minutes above your usual.

MINDFULNESS

Being mindful helps you focus on what you're doing in the moment. Some examples are practicing to pause & take a breath to manage stress, breathing before you speak & performing acts of kindness.
I completed 1 mindfulness activity today.
